

-- Hike of the Month – Family Edition
May 23rd – May 25th (Memorial Day Weekend)

Mills Reservation Trail – Cedar Grove

2.1-mile Loop Trail – **EASY** – Mills Reservation is located on the First Watchung Mountain, one of three Watchung Mountains which are long, low ridges of volcanic origin in northern New Jersey.

There is a view of NYC!

History: During World War Two, an anti-aircraft gun or searchlight emplacement was made in Mills Reservation at the lookout point on the cliffs overlooking New York City. There are also some reports that that cliff-edge location was used as a fire-beacon station in George Washington's communication, and earlier as a smoke-signal point by the Indians. Lenape Trail runs through the park.
