

***This car is your scout's car, it is not your car. You can help him/her build it but this is more than a race, it is a learning experience that you should share with your scout. They will get more satisfaction seeing the car that they built go down the track than seeing the one their dad built for them, win.***

**HERE ARE THE OFFICIAL PACK 6 RULES FOR CAR CONSTRUCTION:**

1. The car is to be built from the kit that is handed out at the Pack Meeting or your Den Meeting. No other cars or kits are permitted.
2. The car weight shall not exceed 5 ounces per the official "weigh in" scale.
3. The length of the car cannot be more than 7 inches.
4. The width of the car cannot exceed 2 3/4 inches.
5. The car must have 1 3/4 inches of clearance between the wheels.
6. The car must have 3/8 inches clearance underneath the body. (Ground Clearance).
7. The wood provided in the official B.S.A. kit must be used; store bought kits, scrap wood, etc. will not be allowed. The block may be formed into any shape.
8. The wheels supplied with the kit must be used; they may not be cut, drilled, rounded, or beveled. You are allowed to remove the manufacturing seam.
9. The axles that are supplied with the kit must be used, and the axles must be used in their pre-cut locations. Do not re-locate the axles. The axles may be polished and lubricated with a dry lubricant.
10. Wheel bearings, washers, or bushings are prohibited.
11. The car cannot have any springs or other type of suspension.
12. The car must be freewheeling without any starting devices or propulsion of any kind.
